

As the administrative landscape for health care programs becomes more complex, navigating the changing demands requires strong partnerships—the kind you find with Noridian Healthcare Solutions. Since 1966, federal, state and commercial health care programs have relied on Noridian for the most efficient and effective service-based solutions, including claims processing, medical review, contact center support and provider management services. Partnering with Noridian allows private and public health care payers to implement services faster, scale operations, improve outcomes and manage compliance.

Headquartered in Fargo, N.D. with over 2,000 employees located throughout the nation, Noridian administrates people-first services across all 50 U.S. states. Leveraging its nearly 60 years of experience, Noridian designs and implements customizable, high-quality solutions to eliminate common health care barriers, enabling access to care.

Why Noridian

- **On Time/On Budget**—Successfully managed 22 large-scale health care administrative services workload implementations over the past 20 years—all on time and on budget.
- **Customer Service Excellence**—Our employees care about the work we do which is why we strive every day to provide an exceptional customer experience for our customers. Our customer service quality scores exceed 99%.
- **Pervasive Quality**—Although we have designations, such as the ISO 9001:2015*, Noridian’s quality efforts and business process modernization initiatives are much more holistic. Noridian continuously examines processes and reshapes workflows to eliminate waste, fraud or abuse of government process.
- **Vigilant Security**—Your data is secure at Noridian. Employees are continuously trained on handling PHI/PII. On the systems side, Noridian is constantly a top performer in security audit rankings and operates at both Federal Information Security Management Act (FISMA) high and moderate security standards.
- **Integration with Supplied Systems**—We work seamlessly with clients’ and partners’ third-party systems. For example, in our work as a Medicare Administrative Contractor we’ve developed expertise with CMS-supplied technology like the Common Working File (CWF), Provider Enrollment, Chain, and Ownership System (PECOS), Medicare Appeals System (MAS), Medicare Shared Systems (VMS, MCS, FISS), HIGLAS, OnePI and others.

**The scope of this certification includes: Medical Entitlement Processing, Data Analysis, Healthcare Call Center and other supporting functions.*

Engagement Approaches

Just as your health plan is designed to accommodate the needs of a specific population, our services are tailored to meet your needs. Every engagement comes with our signature commitment to continuously improve and innovate processes.
